

**Solar Probe Plus (SPP)
Payload L3 Requirements Peer Review
24 May 2013**

Action Item Request

Item No. PAY-136

Originator/ Organization/Phone #: Nigel Angold / ISIS / 818-419-3542

Area of Concern/ Presenter: Open item not discussed in review.

The ISIS team has raised the concern that it may be difficult to meet the requirement to provide processed science data to the public no later than 6 months from downlink of all a given encounter's data for the early part of the mission. More discussion on the subject is required so the issue is still open.

Action/ Recommendation/ Concern:

This AIR is submitted to document the fact that the above open item is still under discussion.
